

Home Learning is critical to ensure our students, your children, do not fall behind in their studies. Working from home is difficult without structure and timings, so please use this suggested timetable to help with motivation (and stress!)

Some things to remember:

- It is ok to get fresh air in your garden or at the moment, providing you are social distancing, going for a walk;
- Home Learning is difficult for children of any age, ease them in gently but take part in their learning with them;
- If you find that work is running out, use the extension tasks and if these are finished, suggest having a go at the work of the next year group;
- There are many on-line websites that children can use to complete their work too;
- We will be replacing work every 2 weeks on the Home Learning section of the website
