

**Year 7 Geography progress grid 2020 /21**

Year 7 Geography	Greater than expected progress.		Expected progress		Less than expected progress	
	Students will be able to know / understand / do:		Students will be able to know / understand / do:		Students will be able to know / understand / do:	
	Mid-year	End of year	Mid-year	End of year	Mid-year	End of Year
<b>Extended learners</b>	<ol style="list-style-type: none"> <li>To know the names of the 7 continents, 4 main oceans and locate them on a map in relation to each other</li> <li>To be able to describe the six causes of climate change and split them between human and natural, evaluating which is the largest cause and why</li> <li>To be able to describe the impacts that humans have on oceans and link this to animal biodiversity, explaining the reasons for these impacts</li> <li>To be able define deforestation and link this to Malaysia (including locating Malaysia on a world map)</li> <li>To be able to describe biodiversity in relation to Malaysia using specific examples and links to other biomes such as oceans</li> <li>To explain the causes of deforestation and the impacts of deforestation and sea level rise with specific reference to soil erosion and coral reefs</li> <li>To be able to discuss the impacts of sea level rise on population and biodiversity and evaluate which impact causes the most damage</li> </ol>		<ol style="list-style-type: none"> <li>To know the names of the 7 continents and 4 main oceans, locate them on a map and describe this location with reference to continents / oceans around them.</li> <li>To be able to explain the human and natural causes of climate change</li> <li>To be able to explain the impact of increased population on marine life</li> <li>To be able define deforestation, link this to Malaysia and locate Malaysia on a map accurately</li> <li>To be able to define biodiversity and link this to examples of biomes (forests / oceans)</li> <li>To explain the impacts of deforestation on biodiversity and humans, identifying positives and negatives within this</li> <li>To be able to explain the impacts of sea level rise on low-lying areas for humans and ecosystems</li> </ol>		<ol style="list-style-type: none"> <li>To be able to name the 7 continents and 4 main oceans and locate these on a map</li> <li>To be able to describe some causes of climate change and split these into human and natural causes</li> <li>To be able to describe the impacts that humans have on ocean biodiversity</li> <li>To describe the characteristics of oceans</li> <li>To be able define deforestation and link to Malaysia, locating this on the map and describe some of the impacts on biodiversity and link this to Malaysia</li> </ol>	
<b>Secure learners</b>	<ol style="list-style-type: none"> <li>To know the names of the 7 continents and 4 main oceans, locate them on a map and describe this location with reference to continents / oceans around them.</li> <li>To be able to explain the human and natural causes of climate change</li> <li>To be able to explain the impact of increased population on marine life</li> <li>To be able define deforestation, link this to Malaysia and locate Malaysia on a map accurately</li> <li>To be able to define biodiversity and link this to examples of biomes (forests / oceans)</li> <li>To explain the impacts of deforestation on biodiversity and humans, identifying positives and negatives within this</li> <li>To be able to explain the impacts of sea level rise on low-lying areas for humans and ecosystems</li> </ol>		<ol style="list-style-type: none"> <li>To be able to name the 7 continents and 4 main oceans and locate these on a map</li> <li>To be able to describe some causes of climate change and split these into human and natural causes</li> <li>To be able to describe the impacts that humans have on ocean biodiversity</li> <li>To describe the characteristics of oceans</li> <li>To be able define deforestation and link to Malaysia, locating this on the map and describe some of the impacts on biodiversity and link this to Malaysia</li> </ol>		<ol style="list-style-type: none"> <li>To be able to name the 7 continents and 4 main oceans</li> <li>To be able to state some causes of climate change and split these into human and natural causes</li> <li>To be able to name the impacts that humans have on ocean biodiversity</li> <li>To state the difference between an ocean and a sea</li> <li>To be able define deforestation and link to Malaysia and describe some of the impacts on biodiversity</li> </ol>	
<b>Emerging learners</b>	<ol style="list-style-type: none"> <li>To be able to name the 7 continents and 4 main oceans and locate these on a map</li> <li>To be able to describe some causes of climate change and split these into human and natural causes</li> <li>To be able to describe the impacts that humans have on ocean biodiversity</li> <li>To describe the characteristics of oceans</li> <li>To be able define deforestation and link to Malaysia, locating this on the map and describe some of the impacts on biodiversity and link this to Malaysia</li> </ol>		<ol style="list-style-type: none"> <li>To be able to name the 7 continents and 4 main oceans</li> <li>To be able to state some causes of climate change and split these into human and natural causes</li> <li>To be able to name the impacts that humans have on ocean biodiversity</li> <li>To state the difference between an ocean and a sea</li> <li>To be able define deforestation and link to Malaysia and describe some of the impacts on biodiversity</li> </ol>		<ol style="list-style-type: none"> <li>To be able to name some of the continents</li> <li>To be able to state some causes of climate change</li> <li>To be able to name the impacts that humans have on oceans</li> <li>To be able define deforestation</li> <li>To be able to state the impacts of sea level rise</li> </ol>
